EXPERIENCE

Senior Front-End Developer
2019 - Now

SMARTGIFT, ISTANBUL

Responsible for all aspects of Front-End architecture and development, including business focussed trade-offs around technology, features, quality and test strategy.

Worked with all team members (product owners, designers and back-end developers) to collect requirements and assemble the project's functionality and add new features.

Developed new gifting experience for multiple brands using React, that shows different themes based on domain.

Created plug-and-play widget using React that can be placed on any website. The widget acts like a shopping basket and allows customers to add their items to gift in it and initialize the SmartGift experience.

Created the storefront application of an affiliate marketing website from scratch.

Maintained the existing projects and added new features to them.

Senior Front-End Developer
2010 - 2019

OVERTEAM, ISTANBUL

Mentored and trained 4 junior Front-End Developers in 8 years.

Developed the UI, layout and Front-End programming for the web applications using HTML, CSS, jQuery and JavaScript that matches requirements.

Responsible for all client side UI Development, custom validations and implementing Business logic based on project requirements using JQuery UI and/or ReactJS.

Involved in developing responsive web pages for mobile, tablet and desktop using CSS3 Media queries.

Front-End Developer
from Junior to Senior
2008 - 2010

MADEBYCAT, ISTANBUL

Front-end coding and CMS integration of new projects.

Maintenance support for existing projects.

Workflow tools included: HTML, CSS, Javascript and SVN.

EDUCATION

Abant İzzet Baysal University
1999 - 2004

PHYSICS BACHELOR'S DEGREE

Took java and html classes as optional lessons.

SKILLS

HTML5, CSS3, React, Redux, Webpack, Javascript, ES6, JSX, Jquery, Wordpress, PHP
